

Information request

A short list of what we need from Sunpure Homes to finish the new website. Everything is grouped by what it unblocks. Partial answers are useful — each one lets a part of the site go live.

WHERE WE HAVE REACHED

All nine projects are built and browsable, with working filters and interactive plot plans for Fadal and Rare Earth including shortlisting and WhatsApp enquiry. The 3D model of each site is under way. The remaining work needs the information below.

Where a detail was not available to us, we have left it off the site rather than guess at it. Nothing incorrect is published while these questions are open.

1 - TO START THE 3D MAP OF MYSURU

Site locations

1 Latitude and longitude for each project

The map places all nine projects on a 3D model of Mysuru. Six of the nine share the same neighbourhood name, so we need a point per site rather than an area. In Google Maps, right-click the site entrance and the first line of the menu is the coordinate pair — copy and paste it. Approximate is fine.

Project	Latitude, Longitude
Happiness 1	
Happiness 2	
H4	
V4	
Curve	
Blessed	
Meraki	
Fadal	
Rare Earth	

Registration and approvals

2 RERA registration number for each project

The site is currently running on temporary numbers, each clearly marked on the page as unverified, so nothing misleading is published. We need the real number for each project before launch. If a project has no registration — the older completed projects may predate the requirement — please write "none" and the page will show "Registration details on request" instead. Each number belongs to one project only.

Project	RERA number, or "none"
Happiness 1	
Happiness 2	
H4	
V4	
Curve	
Blessed	
Meraki	
Fadal	
Rare Earth	

3 Fadal's address

Two different addresses for Fadal are in circulation — one on Lalitadripura Road near Chamundi Hill, and one on KRS Main Road. Please confirm which is correct. No address is shown on the site until you do.

4 Approvals for each project

Each project page has a section for plan sanction, khata or land conversion, and the banks that have approved the project for home loans. Please tell us the status of each, per project, and we will show it. Buyers look for exactly this.

5 Rights to the Mysore Palace photograph

This is currently the main image on the home page. Please confirm who owns the photograph and that it can be used, or send a replacement — see item 9.

Twelve short answers

While preparing the content we found some details recorded differently in different places. None are published on the new site until confirmed. A one-line answer to each releases that detail onto the page.

#	Question	Your answer
a	H4 — villas or apartments?	
b	H4 — under construction, or upcoming?	
c	H4 — is the site at Vijayanagar 4th Stage, Basavanahalli?	
d	Blessed — apartments, and 2 BHK only or 2 and 3 BHK?	
e	Happiness 1 — how many units?	
f	Happiness 2 — details of the two apartments among the 34 homes?	
g	V4 — is it sold out, or still selling?	
h	Rare Earth — is a swimming pool part of the offering?	
i	Rare Earth — what plot sizes are available?	
j	Fadal and Rare Earth — what is included on a plot?	
k	Meraki — is Yadavagiri the correct spelling?	
l	All projects — real distances to key landmarks?	

On (j): plot buyers build their own homes, so we have left interior finishes off those two pages. Please tell us what is actually provided — roads, drainage, water, power, compound wall, and so on.

On (l): we would like to publish accurate travel distances per project rather than a single shared list. A few landmarks per project is plenty.

Assets

6 Approved layout drawings for Fadal and Rare Earth

The plot plans on the site are currently drawn to match your published totals — Rare Earth 279 plots on 18 acres, Fadal 43 plots on 3 acres — but the individual plot positions are indicative, and every plan says so on the page. Your approved layout in any form (DWG, DXF, PDF, or a list of plot numbers with dimensions) makes both the plan and the 3D model real. This is the single most valuable file on this list.

7 Current plot availability

So buyers can see what is available, held and sold. A simple list of plot number against status is all we need, plus the name of whoever will keep it current.

8 Photographs of the completed projects

Happiness 2, Blessed and Meraki are complete but are currently shown with renders. Photographs of the finished buildings would serve them far better. For Meraki we have interiors only and no exterior view at all.

9 A main image for the home page

Ideally a wide photograph or a short clip of a completed Sunpure development. A landscape image at least 2,560 pixels wide, or a few seconds of video.

10 A visual reference for the 3D

If there is a particular look you want the 3D model to have, send an example — a link, screenshots, or a screen recording. If it is a video, timestamps help enormously. Without one we will build to the restrained, stylised style already used across the site.

11 Logo and brand files

The original vector logo files, both the horizontal and stacked versions, plus any brand guidelines. We are currently working from a copy recovered from the existing site.

12 Brochures and price lists

The current brochure for each project, so buyers can download it, and confirmation of how you would like price enquiries handled.

For your side to arrange

13 Access to the existing website

There are two websites on the domain at present. To retire the old one without losing your search rankings, every existing address has to be redirected to its new home. Fadal in particular ranks on the older site. Access to the hosting or a Google Search Console export lets us capture the full list.

14 What should happen to the existing blog posts

For each post: keep it, rewrite it, or remove it. Until you decide they will be carried across but kept out of search results.

15 Where enquiries should go

Enquiries currently open WhatsApp to +91 96069 07153 or your sales email. Please confirm the address or system that should receive form enquiries, and who should be notified.

16 Site visit bookings

Whether you already use a scheduling tool, or whether a visit request should simply arrive as an email or WhatsApp message.

17 Domain and hosting access

Needed only at launch, but it has the longest lead time of anything here, so it is worth starting early.

Already settled

- LinkedIn: [linkedin.com/company/sunpure-homes](https://www.linkedin.com/company/sunpure-homes) will be used throughout.
- Tagline: "Thoughtfully Built. Deeply Lived." is the only one on the new site.

If you send nothing else, send these first

#	What	What it unblocks	Done
1	Coordinates for the nine projects	The 3D map of Mysuru	
6	Approved layouts, Fadal and Rare Earth	Real plot plans and 3D models	
2	RERA numbers	Launch readiness and search visibility	
3	Fadal's address	Fadal's location on the site	
7	Plot availability	Live plot status for buyers	
-	The twelve confirmations in section 3	Details currently held back	
8	Photographs of completed projects	Replaces renders on finished buildings	
13	Access to the existing site	Protects your search rankings at launch	
4	Approvals per project	The trust section on every page	
9	Home page image	The first thing a visitor sees	
12	Brochures and price lists	Enquiry capture	
10	3D visual reference	How the 3D should look	
15	Enquiry destination	Contact forms	
5	Photograph rights	Clearance for the home page image	
11	Logo files	Print quality and future use	
14	Blog decision	The existing articles	
16	Visit bookings	Site visit requests	
17	Domain and hosting access	Launch
